15. Please, share your impressions on studying at your program, identify the problems, which, to your mind, exist on the program and provide us with the recommendations on dealing with them.

Дополнительные сведения

Studying at Krok has been an incredibly rewarding experience. I've been consistently impressed by Menagment the engaging teaching style of professors, the insightful discussions in class, the access to cutting-edge research facilities. The program has fostered a dynamic and collaborative learning environment where I've not only gained valuable knowledge but also developed essential critical thinking and problem-solving skills. However, I believe there's room for improvement in Krok the availability of career counseling services, the integration of practical industry experience, the flexibility of course scheduling

to be honest, In my opinion, it's already a good lesson in Krok

Everesting is fine	Everesting is fine	I thing this items are enough
some teachers are good, but some are clearly uninterested in educating others	more interesting lessons and different types of seminars (not only essays or presentations, but maybe also group work or other activities)	business
Everything is perfect	Everything is perfect already	Everything is perfect already
Interesting	Put the subject in moodle in time	Project management
Good impression	No	It is enough for us wha
I don't face any problems	I think there is nothing	I don't know
Yes	Yes	Yes
Don`t really see any problems. I`m satisfied	I would like more pract	I would like to have some subjects about doing business.
No problems	No suggestions	Python programming
Yes	Yes	Yes
it's good	it's good	it's good
I am satisfied with the program and study process, so far didn't have any significant or unsolved problem	More freedom to student, more group works, more workshops, more invited specialist from lection field we study eg marketing, logistics, etc	Something with law and rights, I think it useful for business specialty
