"All is good"

"No objections. Smart lecturers. Fully satisfied"

"My impression regarding the university and lectures in general is very good. I like ... "

...

Program.

It Empowered students including me to become outstanding entrepreneurs and professionals in the business field.

Challenges and recommend

- internet breakdown due to war coursing electricity which keeps the internet system running to go off.

-Solution. The university can purchase solar systems used to keep the internet systems on when the electricity goes off.

Business management, trust me it's something worth learning

Satisfying

At the moment honestly this university are doing there best to make sure we the students turn into the best of leaders in our fields and I am soo grateful for them

Excellent and effective on studying my program. I believe there are no problems and I love the mode of study

Krok university has always done their best to meet the students needs that help them their education and themselves regardless of which nationality you are. Unfortunately with war things got difficult but they still put it together and reached out to students and coordinated studies. Krok university cares about their teachers and the future of their students.

It has been a long successful year for me to start the program and I haven't encountered any problems so far.

The recent exam I took I had challenge with attaching my work and uploading. Atleast should be able to paste it in a field instead

Though it's quite difficult during the way but we are trying to learn

I Love my School

So far so good I find it impressive and at the moment nothing to complain about.

I am totally satisfied with everything. It would be much better if all lecturers record and save their lectures so everyone can has access to them anytime. It even helps absent students to have access. Thank you

I think a difficulty I came across is the fact that due to the war I had to change courses so I'm only new to the management course and so I'm still trying to cope with that and find my footing in this new course... due to this change I has meant for to me change some career choices.

I haven't ran into any problems with them so far. They've been great and understanding and an awesome team to work with

It's very interesting to learn new subjects with new group

My impression regarding the university and lectures in general is very good. I like what they teach us, each lecturer and share the knowledge they have. In a word, I am in a very good mood with everything.

No objections. Smart lecturers. Fully satisfied

All is good
